I have designed this tape hanger because I have lots of rolls of different types tapes and have a limited space left in my desk drawers, so it came to my mind to design a solution and this is what I came up with, I am using these for a couple of months and it is a good solution for the problem saves a lot of drawer space. I have printed some for my friends too.

These are for 1 inch / 25mm tape wide rolls & 2 inch / 50 mm wide rolls.

Print 2 walls ( 0.8 mm wall thickness).

Top and Bottom also 0.8 mm.

infill 10% to 20%.

One normal and one mirrored image. so that you can hang rolls on both side.

## Print instructions

Print 2 walls ( 0.8 mm wall thickness).

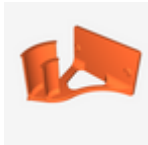

Top and Bottom also 0.8 mm.

infill 10% to 20%.

No supports needed.

One normal and one mirrored image. so that you can hang rolls on both side.
