Tags: [wristrest](#) [keyboard](#)

This is a small wrist rest for 38 cm wide keyboards. The wrist rests sold are too long in depth. However, this one is 50mm deep, compact, easy to use, and perfect for people with small hands. Moreover, the surface is soft when output in TPU. (As you can see in the photo, it is easily scratched, but this does not affect its use.)

Please give it a try.
