Go create some Minecraft turtles to take over your local beach!

- Drafted Design!
- Created in Fusion 360
- **No supports needed! (Includes inbuilt supports)**
- 130x100x30mm
- The Turtle has shell texture!

Make sure to give enough permeameters so the mold can take some smacks to get the Turtle out. I would recommend going with larger layer heights to cut down on time.

**Comfortably Fits the Prusa Mini!**
