It's the same fit as <https://www.printables.com/model/302219-customisable-stamp-seal-stamp>.

There you can find a blank stamp to add your own hanko seal.

The base model has a ~21mm size and the seal itself should be the size you want, maybe it is possible to exceed the size of the base stamp, but I haven't tried.

The idea of the Hanko Stamp comes from <https://www.printables.com/model/523995-japanese-inkan-yin-jian-aka-hanko-pan-zi>

Mine is almost a copy, but I didn't use their files.

I think it should not be used as a real hanko. Maybe **takarocks** design.

I have printed slot up and managed without supports.
