Summary

Anyone who owns a sectional knows that it may seem a lot easier to rearrange than it actually is. A simple tool to help

If you own a Sactional, you may have tried re-arranging in the past, only to find out that what you envisioned was not as simple as it may have seemed. Maybe you've gotten to the finishing touches and realized you didn't have all the pieces you need to complete the layout you wanted (**guilty**). This is a very simple print to try and help eliminate that aggravation.

I'm sure you may have noticed while in the Lovesac showroom that they had all these fancy little blocks to show you how easy it is to reorganize (perhaps, while simultaneously excluding the fact that you might need "half backs" and "half pillows" to do any of what they are selling you on and that they are going to cost hundreds of dollars extra to add on after the fact... but I digress).

I came up with my own blocks to accomplish what they were showing in the showroom. These are scaled to 1:24 of the actual sofa size. Can be

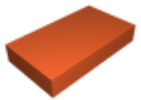

scaled up or down in the slicer depending on your needs, just make sure to scale both pieces evenly.

Please note: I DO NOT own any “half back” sides. I can take a guess at the dimensions, but don't want to screw up anyone's plans. If you want/need a half back modeled for your layout, please comment with the L x W dimensions of the half back and I will gladly add it here.
