Tags: [holder](#) [stand](#) [smartphone](#) [smartphoneholder](#)  
[smartphonestand](#)

A very stable and elegant phone stand inspired by [@Preischi3D](#)'s model, but created from scratch.

Includes a fully customizable OpenScad file that lets you change all dimensions and angles very easily and check where the approximate center of the gravity of your smartphone will lie.

### This remix is based on

## Smartphone stand

by Preischl 3D

## Model files

### phonestand.scad

☐ Parametric OpenScad file

### phonestand.stl

☐ The one in the picture, taylored to my smartphone, as an example.

### phonestand\_v2.scad

☐ New version, includes Horizontal/Vertical marks (see example below)
