Say hello to Frigo the 1950s retro toy robot! This is a multipart model kit and you can make Frigo your own by printing him in any color you like!

Instructions

- Printing should be pretty easy. I recommend using a small layer height, to preserve the finer detail/curves in this small sized model.
- Supports are not needed for the parts in this model.
- Brims are strongly recommended for all of the head and body detail parts. The surfaces with brims will all be hidden when the model is assembled.
