Tags: [track](#) [stamp](#) [animal](#)

This is a set of stamps of tracks of various animals sized to fit a 40mm circle. It comes with a holder that can be printed with a different material and allows simple exchange of the stamps.

This model is based on <https://www.printables.com/cs/model/111227-razitka-zvirecich-stop>, however I was not satisfied with the stamp holder and decided to model a smaller one from scratch and add a stamps for more animals in the process. The stamps size should be compatible with the other model though.

Stamp holder comes with two versions, v2 has a cutout for easier removal of the stamp part. Stamp with tracks are prepared for frog, lion, crocodile, rhino, zebra, monkey, elephant and deer.

The stamp parts were printed with TPU and holder with PETG (printed upside down to ensure flat surface for the stamp insert, supports are not needed if your printer can handle the overhangs).

Feel free to ask for other animal tracks or design them yourself and add them to the set. I also want to add a cap for the stamp holder one day.
