### Summary

i have no idea what to write here

---

[Household](#) > [Other House Equipment](#)

---

I created an adapter to fit my existing tubing to a new greywaterpump. The new pump features a M42x2.3mm thread and the plumbing side a M47x2.3mm thread.

Next to the M42 thread is a groove for an O-Ring.

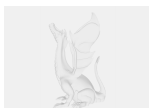

I printed the part in PETG with a 0.2mm layerheight and 100% infill for rigidity.

I used some teflon-tape for better sealing results
