Summary

A simple support to hold an avocado seed at water level for sprouting.

[Household](#) > [Outdoor & Garden](#)

Tags: [avocado](#) [sprouting](#) [sprouter](#) [avocadoseed](#) [glassjar](#)

A simple support to hold an avocado seed at water level for sprouting.
Narrow enough to fit in a thin jar (anywhere an avocado seed would fit).

Outer diameter is 4cm (~1.6in).

Print instructions

Print upside-down, as given. No supports required.

After printing, place support & seed into a jar, fill with water, then wait patiently ;)
