Summary

Small (2x3x4) gridfinity bin for a set of 5 metric Forstner drills (15mm, 20mm, 25mm, 30mm, 35mm)

Since I could not find a bin for my set of 5 Forstner bits (which came in one of that sucking blister packs), I decided to make my own. It had to be as small as possible to fit into my shop toolcart, so I started with an empty bin of 2x3x4 units from https://github.com/vector76/gridfinity_openscad.

In gridfinity_modules.scad I added the lines

```
include <forstnerSet.scad>; forstnerSet();
```

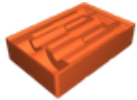

Attached find forstnerSet.scad to define position, orientation and size of the drills.
