### Summary

I was asked to design a travel cover for the "Venus" razor.

I was asked to design a travel cover for the "Venus" razor. The print shown above actually survived several years travel.

The fit isn't perfect, it might be better at 105% scaling or so. The two "jaws" slope slightly in (1 degree); this might also merit tweaking via the openscad file.

#### Notes:

Prints in the orientation shown without supports.
