An easy use brick mold to make walls out of moist sand. This print doesn't require supports.

How to use:

- Place inner plate inside the outer section of the mold.
- Fill with sand until firmly filled.
- Place mold in final location or on a flat surface
- Lift off the red outer mold then the inner mold plate to leave a well shaped sand brick.
- If required move brick to correct location.

Step file included. Remix to larger or smaller sizes, add text, make the brick wavy, etc.
