## Summary

Big Parasaurolophus door stopper for flexible filament.

[Household](#) > [Other House Equipment](#)

Tags: [dinosaur](#) [parasaurolophus](#) [doorstop](#)

The Parasaurolophus can stop doors with a gap of 2.5 cm to the floor.

### Print Advice

- TPU
- 2 Walls
- No Top/Bottom surfaces
- Gyroid infill (because it looks sick!)
- Infill density: vary for your need, I used 6%
- Optional: For extra grip, use “fuzzy skin” (see my picture)
