updated 31. 7. 2023 | published 31. 7. 2023

Summary

For T-Clip system. Can also fit anything else that stays nice in the same position.

[Hobby & Makers](#) > [Organizers](#)

Tags: [holder](#) [tclip](#) [skadis](#) [cutter](#)

To change dimensions, please download the F3D file and change parameters.

The uploaded one has a hole of 16x26mm

For pinning to the skadis board please use the [mini t-clip version here](#) !
(The original ones won't work because it sticks too much on the sides)

Because it uses only one clip, I suggest downloading the version for the unpainted skadis if you have a painted skadis, for tighter fit!

If you have unpainted skadis, you would need to make yourself a narrower version by adjusting parameters of the t-clip.
