Summary

Front and back panels for power supply based on DPS5005 or RK6006 and case Kradex Z4Aj

[Hobby & Makers](#) > [Electronics](#)

This is the front and back panels for the factory-made case **Kradex Z4Aj**.

Sorry, I don't have top and bottom parts, you can buy the case if it is available in your region (Europe probably) and replace the front and back panels with printed ones. I screwed up with cutting original panels so I needed to replace them. :)

Other parts I used:

- Fan 40x40x10 mm: MF40100V2-1000U-A99 (MF40100V2-A99-A) Sunon
- On-Off button R 20 mm: KLS7-020-101N11-RB (3-pin)
- Terminals R 8 mm: BIP-002-NR, BIP-002-NB KLS
- Fuse holder R 13mm: KLS5-255-2
- Power supply 36V 7A from Aliexpress
