Tags: [sunlu](#) [ptfe](#) [bowdentube](#) [sunlufiladryers2](#)
[reversebowden](#) [bowden](#)

For bowden fittings that allow the tube to pass through it also allows for easier loading of the filament than. through the hole.

Printed in PETG with 0.4mm nozzle and 0.2mm layerheight. No supports, drilling, or threading needed for the model. Slight enlargement of the existing PTFE hole, as well as ha 3.5mm hole ca 7mm away from PTFE, center to center. Mounts with a M3x7 screw.
