updated 30. 8. 2023 | published 30. 8. 2023

Summary

Longer version of the excellent MMU Material Markers. With stick-on holder, so you can reorganise your filament

[3D Printers](#) > [3D Printers - Upgrades](#)

I use 9mm Brother TZ labels for my filament markings and wanted a movable filament sample clip, so I remixed the one so it will fit my filament labels

This is a longer version of the excellent [MMU Material Markers](#) (and clip for non-MMU) by [@Florian_5954](#)

The clip, can attach to filament storage boxes.

I also remixed the [Bambu AMS filament marker stand](#) to a [taller version](#).

This remix is based on

MMU2s Material Marker

by Florian

Bambu AMS filament marker stand

by Phil

Model files

filament-sample-longer.stl

☐ Longer filament sample

filament-sample-clip-minimal.stl

☐ Flat back

filament-sample-clip-minimal-v2.stl

☐ Beveled edges on both sides

filament-sample-clip-v5.stl

☐ Now with a solid backside, for easier sticking
