Summary

A small collection of - hopefully useful - things for an Adria Action caravan.

This is a collection of things I designed for our Adria Action caravan. Our is a 361LH from 2021 and I haven't tested that the designs work for other versions or model years.

So far:

- A double hook for the toilet door
- A single hook for the locker doors
- Shelf fence + attachment clip, to avoid the small stuff to fall down when driving
