Pictures are of my own print.

From the original listing:
Summary

Update made by Christophe Rolland from Facebook Group Creality CR-10 Francophone

The resulting feet are great and the prints are better, and you can put the control box under the printer (beware of cable lengths, some need more length to use all the volume)

The balls are regular squash balls ;)

Print Settings

Printer brand:

Creality

Printer:

CR-10

Rafts:

Yes

Supports:

Yes

Resolution:

0.2

Infill:

60
