Summary

empty puzzle without edge for you to customize and make open ended puzzles

[Toys & Games](#) > [Puzzles & Brain-teasers](#)

This is an empty puzzle, which can be manufactured with a one layer pattern, as explained in this video:

If you want a repeating image that fits the puzzle, the image would repeat at 19x19 cm.

For the purpose that you have a flat image in case you are not sure how to get one, I've added a flat flower pattern which repeats at 19x19 cm.

More of my puzzles can be found on GitHub: <https://github.com/benjaminwand/OpenScad-random/tree/main/items/puzzles>
