A turntable after Swedish model. It is possible to give the tracks power though this model, you have to find out yourself how it's done. Otherwise it completely manual. I have used wood filament on the parts is visible.

## Model files

**turntable.stl**

**carrige.stl**

**wheel.stl**

**woodfloor.stl**

☐ Floor to cover upp, same on both sides

**woodfloor\_middle.stl**

☐ In the middle of the track

**woodfloor\_border\_right.stl**

☐ Cover the ties on right side

**woodfloor\_border\_left.stl**

☐ Cover the ties on left side
