Summary

Couple 2 1.25 hoses typically used for pools

[Household](#) > [Outdoor & Garden](#)

Tags: [hoses](#) [pool](#)

Couple 2 - 1.25 inch hoses together. Print the main body in PETG or ABS and 2 of the the o-rings in TPE or TPU.

Print separately as shown in the image. A brim is recommened for both pieces as the surface area is minimal.

This still requires the used of hose clamps which are not provided.

I use it for to increase the length of a couple hoses of my Bestway above ground pool, but it is generic and would work for intex or any other brand hoses.
