My daughter went to see the Barbie movie and asked me if I could create a Barbie shadow box for her. So I created this for her.

Plate number 2 consists of 8 color swaps to create that iconic Barbie character.

I've used the following colors:

- Plate 1: 3DJake ecoPLA Pastel Pink
- Plate 2

1. start: eSun PLA+ Pink
2. swap at start of layer 6: 3DJake ecoPLA Yellow
3. swap at start of layer 8: Polymaker PolyTerra PLA Peanut
4. swap at start of layer 10: Eryone PLA Black
5. swap at start of layer 12: Prusament PLA Gravity Grey Hex
6. swap at start of layer 14: Polymaker PolyTerra PLA Lava Red
7. swap at start of layer 16: Tinmorry PLA Sky Blue

8. swap at start of layer 18: Geeetech PLA White

- Plate 3:

1. start: 3DJake ecoPLA Glitter Purple

2. swap at start of layer 6: Geeetech PLA White

The colors are just guidelines, you can get creative with the color scheme for a personal touch.

It consists of 3 numbered plates.

You can find the box to display this set here: <https://www.printables.com/model/479648-shadow-box>

The box with lid and the wall mountable box are both Club member exclusives. (Box with lid also available for individual purchase on [Cults3D](#))

Print settings

Plates

- No supports
- 100% infill
- Arachne wall generator recommended
