This is a top-side mounting plate/bracket for [these 4 in. Stacking Tilt Bins from Harbor Freight](#).

Two versions are offered:

- single dovetail mount: designed for 1 storage bin
- double dovetail mount: designed for a pair of connected storage bins (see my photos)

I use this plate on the underside of my desk to hold 2 storage bins.

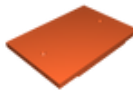

Both versions have recessed screw pockets.

Both seem to hold very well without any modification.
