### Summary

High detail model of an elephant.

[World & Scans](#) > [Animals](#)

Tags: [figure](#) [sculpt](#) [model](#)

Found a nice model on SketchFab, with as usual, all the details in the normal maps.

Also wanted my elephant with it's trunk down, like it's just taking a stroll.

Adjusted his balance a bit so he would keep standing on three legs.

Added more skin texture by sculpting.

Printed with my mk3s+ @0.16mm

Nice model to paint!
