Summary

Merged 2 designs to make a multicoloured cherry blossom

[Art & Design](#) > [Wall-mounted](#)

Tags: [p1p](#) [silhouette](#) [ams](#) [blossom](#) [wall](#) [art](#) [x1c](#)
[cherry](#) [bambu](#) [labs](#)

Took the silhouette from <https://www.printables.com/model/407014-cherry-blossom-wall-art>

and added the center of the flower from <https://www.printables.com/model/406111-sakura-cherry-blossom-chopstick-stand>

I painted the petals sakura pink, the center hot pink, the stems of the pollen black and the pollen itself yellow. It's all layered so you can do manual colour changes with any printer or it can be easily painted for an Bambu AMS with little waste from purging.

The original cherry blossom wall art has files for petals to fill the silhouette but they will have to be resized to fit this file.

Printed at .2mm layer height and it took 63 grams for the model, 6 grams flushed.

If you download please drop a make and like, thanks!

I didn't realize there was an AMS error and lifted the sheet before it could print the yellow pollen, yours will look nicer 😊
