updated 1. 8. 2023 | published 1. 8. 2023

Summary

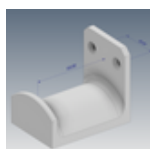

Deleted the holes in blender, I liked this model better vs the one with the open bottom. Wanted to use command strips.

[headphone](#) [wallmount](#) [desk](#)

I used 2 “medium” command strips side by side to mount this on the side of my desk. Has worked fantastic for over a month so far (June 15th, 2023)

This remix is based on

Headphone holder
