Summary

Remixed mount for the BTT HDMI5 on the Troodon 2.0

[3D Printers](#) > [3D Printers - Upgrades](#)

Original model was very complete with multiple mount options all in 1 step file. I've removed some of the options to streamline down to 3 needed components - the mount and a 2 part screen frame.

The USB-C port hole has been moved to better accommodate the plug housing.

The upper buttons are made accessible with an open access port instead of small pin holes.

BOM:

Screen Frame:

4 M3X8 SHCS

4 M3x5X4 heat set inserts

Screen Back:

4 M3x16 FHCS

Mount:

2 M3X16 SHCS
