Summary

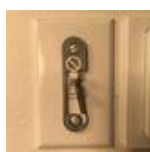

This is now a FIXED light switch lock. Fixed, meaning always in the on position.

Tags: [lightswitch](#) [wyze](#) [printinplace](#) [light](#) [switch](#) [led](#)

I liked the light switch lock remixed by GALACTIC, which functioned as intended. But after printing and installing the lock the light switch somehow would randomly still get switched off. I remixed the design to always keep the light switch on. Curious little hands, can no longer inadvertently switch it off. This is very handy for wi-fi controlled LED lights around the house.

This remix is based on

Light Switch Lock
