### Summary

2x2 Gridfinity compatible holder for Centech Photo Tachometer with a couple slots for whatever you want to put in there

[Hobby & Makers](#) > [Organizers](#)

Tags: [centech](#) [gridfinity](#)

i printed on a BambuLabs p1p with the default generic PLA profile at .2mm layer height. i'm sure your default PLA settings will do just fine.

i'm open to modifying if something strikes your fancy in the dead space.
