Holder for four Pentel Maxiflo whiteboard pens.

As a trainer/consultant, I love me some whiteboard pens, and these ones are great - especially for writing on flip charts.

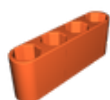

BUT! There are a few issues with the pens:

- Where I live, they don't sell the 4 packs any more, just single pens,
- The clear plastic pack for the 4 packs breaks after a while anyway, and
- You need put the lid on the back or hold it in your hand as well as the other pens, and this takes time.

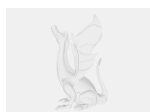

This holder replaces the plastic pack, doesn't take up any more space, allows for quick changes of colours, and keeps the pens neatly arranged. Awesome!

The tapered lids on the whiteboard pens form an excellent friction fit into the taper of the model, keeping them secure. I printed mine in ABS, 0.6 nozzle, 2 walls, 15% infill. Not much strength is needed.
