This nice Chocolate Mouse can be used to handle liquid chocolate.

It as an inner chocolate chamber, surrounded by another heater chamber, which is filled with hot water to keep chocolate liquid.

It can be used together with the amazing Moineau Chocolate extruder , or just to decorate cakes.

One funnel is chocolate, the other is water

Make sure you print it PLA (or PET) in order to stay food save

Instructions

Use Food save plastic(e.g PLA or PET)

Print without support as you probably won't be able to access all support finally . No addional support needed.

The mouse is proven to stand boiling water with PET.
