## Summary

Tonke 1:16 Tire model MGA

[Toys & Games](#) > [Vehicles](#)

Tags: [mga](#) [scalemodel](#) [tire](#)

I made a tire to fit my old model Tonka MGA 1:16 scale.

I've "painted" the model when I was about 3 years old, so the paint job isn't great. But I have some memories of this car. Only a few tires were missing (had 1 left) over the 30 years I got the model.

I added a very thin disk (last photo) to prevent support on the inside. Just open it up (little drill or knife) after printing and put it on the model.
