Tags: [7inchdisplay](#) [originalprusaenclosure](#) [raspberrypi4](#)
[raspberrypicase](#)

This is a model for the Original Prusa Enclosure.
It combines the Case for Raspberry Pi4 and the Display Enclosure.

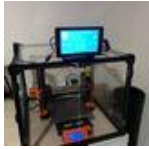

As Example you can use it for OctoDash.

You can connect the 2 Parts with **4x M3x12** (Spare Parts of the Enclosure)
The Raspberry Pi 4 Case you can connect with **2x M3x8** (Spare Parts of the Enclosure)

The Raspberry Pi 4 Case needs some support the Display Enclosure not.

I recommend printing with 20% infill and PETG
