Simple adapter that allows to use the them-connect which comes with my lay-z-spa (Hollywood 2022) to use together with the Bestway LED Waterfall that uses a magnet mount bracket on the pool to connect / disconnect the waterfall.

I want to continue using the original chem-connect but not always have to unscrew the base socket and replace it with the magnet base socket.

It is a simple and slim adapter so I can leave the magnet base connector in the pool and quickly take out the chem-connect and attach the waterfall.

Printed with a stop before the top layer goes over the magnet pockets to insert some magnets.

I used 10 MAURO NdFeB 48 (8x3 mm) magnets from Hornbach.
