Summary

Spacer for ABUS USH 540 bracket

[Sports & Outdoor](#) > [Other Sports](#)

Tags: [abus](#) [lock](#) [bracket](#) [spacer](#) [abus540](#) [bicycle](#)

I needed a spacer to mount my ABUS Granit 540 bicycle lock with the ABUS USH 540 bracket. The original spacers are for round frames with a diameter of 15 - 35 mm and I needed one for diameter of 10 mm, so I decided to design my own spacer.

You need two of the spacers to mount the bracket. I also wrapped some duct tape around the frame, so the spacers have more friction on the frame and do not slide.

Print settings

Material: PETG

Infill: 15% (gyroid)

support: not needed

layer height: 0.2 mm

Hope you like it and found it useful.
