### Summary

Magnetic mount for the flexible poo pipe

[3D Printers](#) > [Accessories](#)

Tags: [poop](#) [poo](#) [bambu](#) [bambulabx1](#) [bambulab](#) [bambulabx1carbon](#) [bambulabx1ams](#) [poopchute](#) [bambulabs](#) [bambulabp1p](#) [bmabupoo](#)

The original design was screwed onto the back of the printer. I wanted a magnet mount in case I needed to clean. This design uses (4) 6mm x 2.5mm magnets. This should fit all current Bambu machines, I have tested on X1C and P1P.

- 2023/8/10 Added v4, increase the down angle by 10 degrees.
- 2023/8/24 Added v6, Lowered the connection 15mm to create a greater down angle.
