Summary

Lawnmower Blade Balancer Remixed Base

[Household](#) > [Outdoor & Garden](#)

I tweaked the bottom of the base of Materialistic_3D's Lawnmower Blade Balancer design (<https://www.printables.com/model/244656-lawnmower-blade-balancer>) to be printable without supports for printers that can handle 45o overhang. This base goes with the cone of the original design so you'll have to get the cone there.

This remix is based on

Lawnmower Blade Balancer
