Summary

Web camera mount

[3D Printers](#) > [Accessories](#)

I needed a taller version, so I remixed this one. It changes the mount height to 85mm.

It also has some cutouts so you can wrap the cable on the mount if needed.

Lastly, I added some blocking behind the mount tubes so you don't need supports to print this!

This remix is based on

logitech c270 webcam mount vslot 2020
