### Summary

An easier-to-print handle.

[Costumes & Accessories](#) > [Props](#)

I liked the mini lightsaber design by Gwions, but I wanted to simplify and speed up the printing a bit, so I modified the handle to be a single piece. I also modified the “button” and “tab” shapes to enable printing the handle without supports.

I think this has the added benefit of eliminating small pieces which can be a choking hazard for small children if they break loose.

You will need to download the Blade and Cap from the original version at the link below, as I am including only the modified handle here:

<https://www.printables.com/model/131720-mini-lightsaber-toy/files>

I made two of these (see photos).

### Print Instructions

I printed in MatterHackers two-color Quantum PLA. Print using the 3mf file provided; otherwise :

- 0.2mm layer height
- 15% rectilinear infill

- 2 perimeters

## CAD

The OnShape 3D CAD files for this are here :

<https://cad.onshape.com/documents/b85616387bb6efce9b2625ce/w/0b62b748fbf26263f0e6dc24/e/c8248aab6bf485a9819b0547?renderMode=0&uiState=64c9248a92368840bc1b2d39>
