updated 1. 8. 2023 | published 1. 8. 2023

Summary

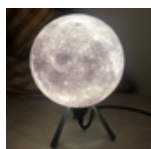

A spiral to fit LED strips inside the lamp

[Household](#) > [Living Room](#)

Tags: [lamp](#) [led](#)

A spiral that fits roughly 1.5 meters of LED strip and works with the d28 adapter from the original model. It requires no supports and is already oriented for printing. There is a 8mm and a 10mm version, print the one that matches the width of your LED strip.

This remix is based on

Designer Lithophane Moon Lamp

by Frank Deschner

Model files

ledspiral-8mm.stl

☐ For 8mm wide LED strips

ledspiral-10mm.stl

☐ For 10mm wide LED strips

ceiling-adapter-d28.stl

☐ Adapter that plugs into the bottom of the moon and holds the spiral inside
