Tags: [dinrail](#) [dinmount](#) [bigtreotech](#) [voron](#) [voron0](#) [din](#)  
[btt](#) [skrat](#) [bigtreotechskrat](#) [bttskrat](#)

Simple mount for the SKRat motherboard, that in conjunction with this [PCB din clip](#) allows mounting it to DIN rails, especially for use in the electronics compartment of a Voron 0 3d printer.

This mount uses standard voron heatset inserts and M3 bolts instead of self tapping screws to avoid cracking the plastic and multiple fastenings without wear
