Tags: [novonordisk](#) [penneedles](#) [medical](#) [norditropin](#)

Travel case that holds a Novo Nordisk FlexPro pen along with sufficient needles and swabs to get through a week of injections with a spare. Print-in-place / no assembly required.

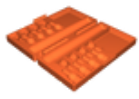

Printed with a 0.4mm nozzle. I used 40% infill just to get a little more weight to it.

A couple notes / differences from pictures:

- I added a finger tab to make it easier to get out the alcohol swabs.
- There is no text label as pictured on the case. Use the text tool in your slicer if desired.
- Sized for 32G X 6MM pen needles. Longer needles may need a little more room.

Design inspired by [FDzine's container](#) on Thingiverse.
