I bought these super cool Universal Monsters drinking glasses from Super 7, and I wanted to display them. I was worried that dust would eventually get inside, so I designed dust-cover tops. The tops double as platforms for Funko Universal Monsters Mystery Minis.

The cups sit pretty tight on this small shelf, so I made some bases with raised edges that help keep the cups from falling off. I attached the bases

to the shelf with two-way Scotch tape. The bases also make it easier to turn the cups to see the art on the opposite side.

These should fit most glass drinking cups of the "classic" collectible design. For cups of other sizes, I am attaching the Sketchup files so you can modify as needed. For reference, the inner diameter of the dust-cover is 79 millimeters. (That is, the part that fits inside the cup.) The inner diameter of the base is 62.4 millimeters. (That is, the part that fits around the cup base.) I designed them to be a little loose since there is minor variation in drinking cup sizes.
