Summary

Fun mini air cannon. Use a cut balloon as the diaphragm.

Print it then cut the end off of a balloon and put it over the lip in the back. Pull the balloon back and let it go to shoot a small puff of air.

Print Settings

Printer Brand:

Creality

Printer:

Ender 3

Rafts:

Doesn't Matter

Notes:

I used a .8 mm nozzle and the cheapest PLA I could get on amazon. There is some under extrusion and junk, but the model works well enough.
