Summary

A top rail guide you can either use as simple filament guide or combined with the tube that comes with the eSUN dryer

[voxelabaquila](#) [voxelab](#) [filamentguide](#) [aquila](#) [ender3](#)

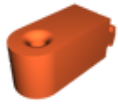

I made a simple filament guide that attaches to the top rail of your Aquila / Ender and is also compatible with the tube that comes with the eSUN filament dryer.

Prints without supports.

Also have a look at my eSUN filament dryer shelf:
