## Summary

Three models to test Filament break / bend and layer adhesion.

[3D Printers](#) > [Test Models](#)

I made some models to test my filaments in different ways.

There is no big science behind those designs and i was inspired by some youtube videos.

So i guess the designs are not “my own” or very creative. Feel free to use, test and reproduce them.

I would like to have some feedback.

I added STL and STEP files

## Model files

**break-hook-v1.stl**

**layer-test-v2.stl**

---

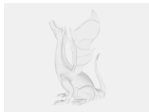

**break-test-1-v2.stl**

---

**break-hook-v2.step**

---

**break-test-1-v3.step**

---

**layer-test-v2.step**
