### Summary

I was disappointed to find that there wasn't a cool plateau cap for the 120° fountain remix so I made one :D

This seemed like a nice small addition tbh. It wasn't too hard to model either

(I wasn't sure which model to remix so I just chose this one :) )

First (and probably last) edit: There was a small flaw in the big piece that I didn't notice when printing 'cause it fit mine, but two users had problems with it, so fixes ensued.
