Tags: [hiking](#) [hose](#) [deuter](#) [water](#) [backpack](#)

Small clip and strap to fix a hose from a water bladder to the shoulder straps of a backpack.

Its designed for a Deuter Aircontact Ultra 50+5 backpack, but it should fit other packs.

PETG should be ideal for the clip and TPU for the strap. No supports needed

There are multiple files:

Strap in 3 lengths (shortest one fits 10mm hose) and clip with different width:

- Slim: clips on tight and is harder to remove
- Mid: clips on tight enough and works also for thicker strap loops
- Wide: barely clips on, easy to remove and clip in (not tested irl yet)

Model files

waterhosedeuter-waterhosestrapdeuter_short.3mf

☐ Works for hose with diameter ~10mm

waterhosedeuter3-waterhosestrapdeuter_mid.3mf

waterhosedeuter2-waterhoseclip_deuter_slim.3mf

☐ clips on tight and is harder to remove

waterhosedeuter2-waterhosestrapdeuter_long.3mf

waterhosedeuter-waterhoseclip_deuter_mid.3mf

☐ clips on tight enough and works also for thicker strap loops

waterhosedeuter3-waterhoseclip_deuter_wide.3mf

☐ barely clips on, easy to remove and clip in (not tested irl yet)
